GLOBAL HOTEL DESIGN

MAY | JUNE 2019

Shinola Hotel

The luxury goods brand ventures into hospitality with a handcrafted hotel in its home town of Detroit

Jean-Philippe Nuel

The French designer brings his own style of classic elegance to Europe's heritage buildings

Belmond Cadogan

Charm, character and craftsmanship come together at Belmond's London debut

BERT FRANK

Rote

Bert Frank's Rote series comprises slotted, laser-cut satin brass and black diamond leaves fitted to an internally and externally illuminated brass ring. Designed in four versions: pendant, wall sconce, table lamp and chandelier, the lighting solution can create a focal point over small dining tables or be grouped as a centrepiece using small, medium and large pendants. Thanks to the latest LED technology, Rote is also available with Bluetooth dimming capabilities.

MLE LIGHTING

Celeste

Inspired by the Italian design of the 1950s, MLE Lighting's Celeste range features a wall lamp characterised by a generous round uplighter and deep sapphire blue polished finish. Designed by Lotte Breithaupt of Fuina Architettura, the lighting solution also uses brass components to highlight the layers of time, the imperfections of the surface and the craftsmanship of the welder.

WEVER & DUCRÉ

Mirro

The Mirro series from Wever & Ducré has been created in collaboration with Austrian collective 13&9 Design and fashion designer Sabrina Stadlober. The lighting range incorporates a reflective metallic surface that resembles a mirror; the circular luminaire is available as a wall, ceiling, hanging, table or floor version and bathes spaces in warm atmospheric light.

ESTILUZ

Alfi

Designed by José Manuel Ferrero of EstudiHac and developed by Estiluz's design team, the Alfi luminaires are available in floor and pendant models. Conceived for optimum adaptability, the series is highly adjustable thanks to the independent movement of its light source components, which, coupled with open frames, allow for the creation of multiple configurations, mimicking the pins that help tailors craft multiple patterns.
