

(ENG) The chandelier re-imagined as a stylized wheel, with cylindrical lamps which can project light up and down. Laverd is offered in two sizes that can be combined or vertically connected. A central element suspended from steel cables permits the creation of different shapes. (ESP) Laverd da vida a una lámpara de araña, reinterpretación estilizada de una rueda con pantallas cilíndricas que proyectan la luz en ambos sentidos. Un elemento central dinámico permite la creación de diferentes formas conectando y combinando lámparas de dos diámetros verticalmente.
